*They sowed fields and
planted vineyards that
yielded a productive harvest*

Psalm 107:37

Word from the President

Dr. Louis Blom

It is the Year of our Lord Jesus Christ, 2019, and it is a wonderful honor to work for God in Africa. Most missiologists would agree that the people of Africa remain most receptive to the Gospel of Christ. Few places in the world provide greater opportunities to work for God and expand His kingdom! Christianity has shown incredible growth in Africa during the past 100 years, thus the church of Christ is growing faster in Africa than anywhere else in the world. Therefore by His grace the Judea Harvest Group also reports extraordinary growth year on year.

Expanding the borders of our Tent pegs wider, reaching More people for Christ and Impacting more nations

I would like to thank our pastors, evangelists, coordinators, trainers, Early Childhood Development (ECD) Teachers, as well as all our partners and donors for standing and working with us in His great harvest! Without you we would not be able to do our work efficiently and effectively.

During the next year we want to pay special attention to our grass root laborers! The pastors, evangelists, church planters and Child ministry practitioners are the real heroes of The Judea Harvest Group! They are the one's working in rural settings, informal settlements and government development suburbs, mostly in difficult and dangerous circumstances! They make great sacrifices to reach and disciple the people of our Nations in Africa! We love and appreciate you very much! During the next year or two we will launch various initiatives to support, equip and resource you, our co-laborers in Christ!

Let us all actively pray for our brothers and sisters living and working in these harvest fields, where they face many adversaries. We invite you to consider joining our teams on a weekend outreach. During the next year we will host various outreaches for you to experience miraculous harvesting work live and firsthand.

Let us join our forces and endeavor to complete the Great Commission in our lifetime.

Harvesting Greetings,
Dr. Louis Blom

JUDEA GROUP CELEBRATES JESUS CHRIST

**"EVERYTHING WE DO IS
BECAUSE OF THE SAVIOR"**

Judea Harvest

Ps. Kola de Klerk

Judea Harvest spearheads the Evangelism and church planting work in the Group. Ps. Kola de Klerk is the CEO of this work.

It is the mission of Judea Harvest to mobilise, equip and provide resources to God's laborers, in order to complete the Great Commission in Africa. Millions of people have been reached and close to 10 000 new Churches have been planted. The resources has made a vast impact across Africa since its inception in 1999. Judea Harvest has been managing various ministry and development projects very successfully, across Africa with incredible results. We invite organizations and foundations to partner with us, transforming the people of our continent!

Taking The Word To The People

Our Audio Discipleship Course, for those who cannot read, a solar-powered Audio Bible in the native language is provided. With the help of the MBC (Mini Bible College), provided by ICM, an audio based discipleship Bible study course has been placed in every Judea Harvest church. This course consists of 215 lessons on the Bible. People listen to the lessons and then participate in group discussion. To date, Judea Harvest has implemented 9 320 MBC Audio Bibles across 17 African countries.

Bibles

There is nothing more powerful to help people know God and build a relationship through discipleship. In the last year, we have given a free Bible to every new convert in Judea Harvest outreach projects and churches. These Bibles are provided in the local language of the region and ±25 000 Bibles are distributed annually. In January 2016, Judea Harvest delivered 25 000 French Bibles to the harbour in Lome, Togo, West Africa. The last ones are still being distributed this year.

Taking Church Planting to West Africa Through John Journey

The John Journey evangelism strategy is now in its fourth year since roll-out. The results are very encouraging and we are pleased to report that the strategy has been adopted by the local leaders as their own. They are now replicating and scaling the project by doing John Journey seminars on their own. The focus of these efforts is in the unreached rural areas.

John Journey Is Now Active In;

Benin, Botswana, Burkina Faso, Cameroon, Central African Republic, Chad, Democratic Republic of the Congo, Ghana, Kenya, Lesotho, Madagascar, Malawi, Mozambique, Namibia, Niger, Nigeria, Sierra Leone, Swaziland, Togo and Zambia.

CHURCH PLANTING

PLANTING APPROXIMATELY 7000 HOUSE CHURCHES IN AFRICA PER YEAR

PLACED 250 TENTS PER YEAR FOR NEW CHURCH PLANTING

**BUILD 40 CHURCH BUILDINGS PER YEAR
CHURCH BUILDING IS THE CULMINATION OF A
5 YEARS CHURCH PLANTING PROCESS**

TEACHING TOWERS PROVIDING FREE CHRISTIAN MATERIALS & BIBLES

TRANSLATING MATERIAL INTO LOCAL LANGUAGES

WINNING HORSES PROGRAM TRAINS 3000 PER YEAR

Judea Training

Dr. Danie Reynecke

Dr. Danie Reynecke is the CEO of Judea Training. The dream of Judea Training is to equip the untrained African Pastors.

Various studies have shown that there are at least one million preachers in pulpits every Sunday who have never had any theological training whatsoever. In many African countries churches have an average of only one trained pastor for every 20 churches (Buys, Theological Training for Untrained Pastors. www.christianlibrary.org.au).

Since 2013 Judea Training has trained more than 23 000 spiritual leaders with practical Christian one day courses. These leaders have completed more than 55 000 courses. Students were recruited within the Judea Harvest network. Judea Training has taken note that traditional Christian and Missiology training have changed dramatically during the last number of years. Very few students

go for full time training at universities and seminaries. Judea Training offers Introductory Biblical training at various Judea Training Campuses throughout Africa. This training is presented in one-day contact classes and includes evangelism, missiology, church planting and church administration.

These contact classes take place over four days at a time.

Current Judea Training Courses to reach the untrained African pastor are available on;

- Audio players
- DVD
- Text Formats

Solid pastoral training can change the face of the world around us.

Judea Hope

Ms. Thea Blom

Ms. Thea Blom is the CEO of Judea Hope. Focusing on the children of Africa and securing their future by investing in their education and nutrition.

Judea Hope has been active in Southern Africa's previously disadvantaged communities for the past 17 years through a variety of community upliftment and development programs. It was a couple of years ago that we were confronted with the dire need of the children of our region. This led to several programs, focusing on early childhood development.

Day Care Centres and Feeding

One of the major needs that we focused on was the creation of day care centres for thousands of children who had no place to learn, play and eat. Through collaboration with religious and civic groups we have established 1300 informal day care centres that also serve as an ideal platform for the distribution of food.

Unique Nutritional Approach

Through research and consultation with local nutritional experts, Judea Hope (www.judeahope.org) has formulated a dehydrated rice, vegetable and legume based meal that provides all the macro nutrient needs for a child and even an adult. To enhance the nutritional potency of the meal further a vitamin and mineral (sachet) was specifically formulated for the meal pack and is included in the packaging. This is added after the meal has been cooked. Soon after we had rolled out

the first batches of food with our vitamin sachet, great feedback started rolling in. There are too many testimonies to note in this document. Feedback ranges from decreased illnesses among the children, to improved general health of people living with HIV.

Sadly due to an overwhelming need we are currently only able to supply 3 meals per week at some of the 1300 day care centres.

Vegetable Production Tunnels

Due to the overwhelming need of providing food in our crèches countrywide, we have developed a more sustainable model of producing food for our crèches. Currently we are rolling out vegetable tunnel food production in two of our training centres and plan to roll-out a vegetable tunnel at each one of our crèches countrywide.

The crèche is taught to produce food for themselves in the tunnel that is built on their crèche premises. Children are engaged in this programme as part of the ECD curriculum.

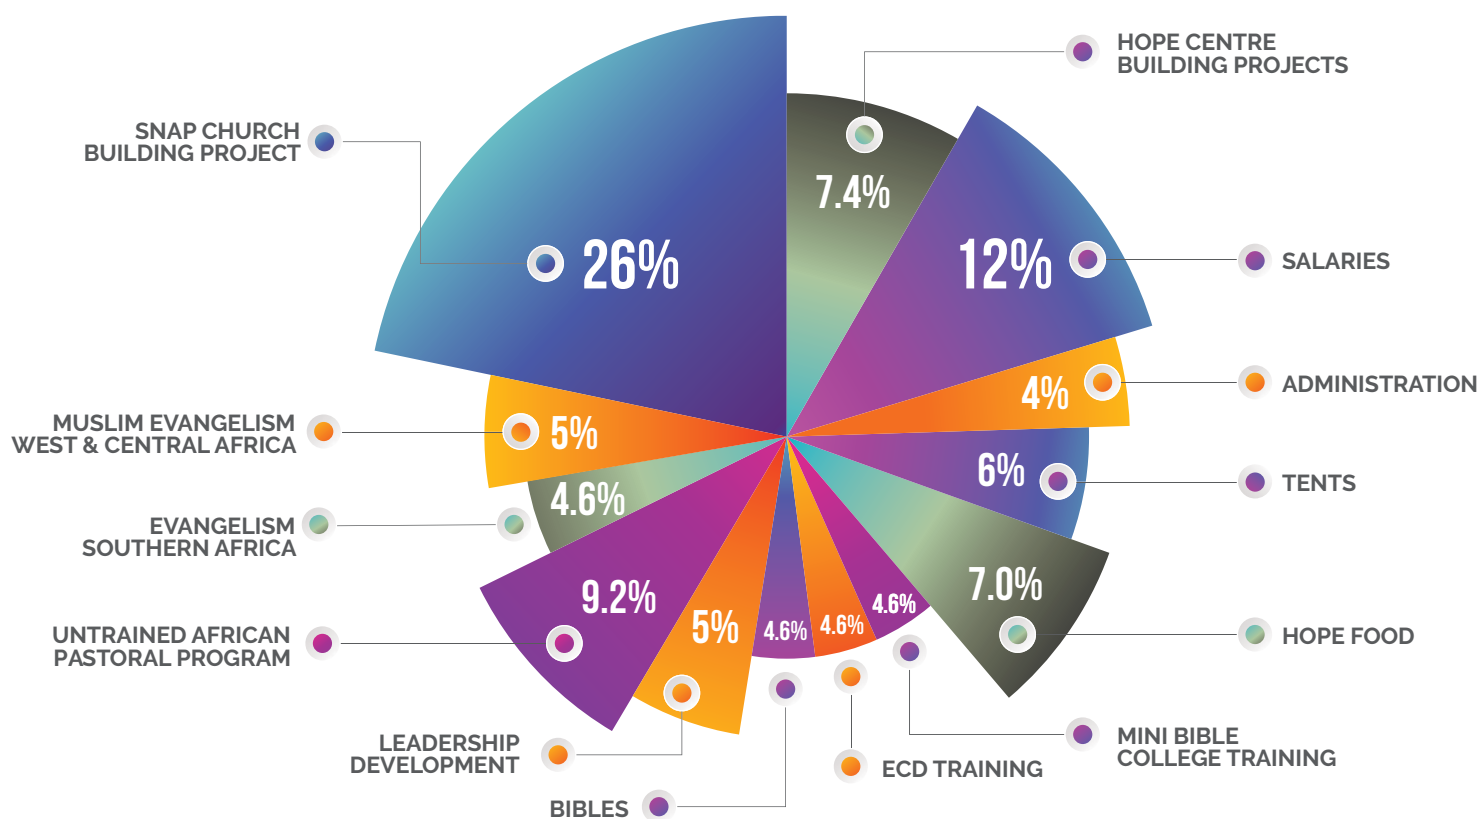

Each class takes turns every day to work in the tunnel and to learn and have fun in growing and producing their own food. This is a more sustainable way of producing food. The excellent added benefit is that education in agriculture at grass root level is taking place simultaneously. Judea Hope is very excited about this project and anticipates it to make a massive impact in our communities as already seen in our existing tunnels.

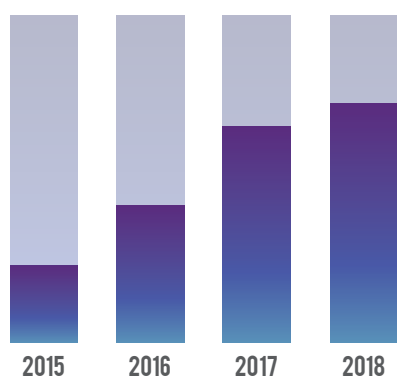

**“Together we can
Elevate the lives of
disadvantaged
children in Africa”**
